\$125 - Day Rental
\$500 - Week/5 Days

*Pricing subject to change

Overview

Make quick work of under-brush, berries, saplings, bramble, vines, tall grass and small trees! The Outback® BC26 can cut saplings up to 2" wide and brush 6' tall – all at a rate of just under an acre of brush per hour.

Tuff Torq™ Hydrostatic Transaxle

With Enhanced Traction Control is fully automatic, sensing when the rear wheel starts to spin, locking the wheel and giving it positive traction. Provides superior traction in wet or uneven conditions and eliminates loss of forward motion.

Pivoting Deck

±12 degree pivoting deck with proprietary return to neutral is engineered to glide over uneven terrain. 26" wide deck with higher tip speed for improved speed and cut quality.

Intuitive drive controls

Our best in class padded grip handle controls package provides standardized variable speed intuitive hydro-drive controls allowing an operator to feather in forward / reverse directly at the handles with no shifting required. Billy Goat Controls offer a consistent customer experience across our hydro-drive machines affording rental customers simple operation.
